THE PRIME MINISTER

3 August 1989

Dear Victor,

Thank you for your most intriguing idea for tackling the cocaine and crack problem set out in your letter of 26 July: it is characteristically brilliant. I shall look into this and will come back to you when I have more information about whether it is possible.

And thank you too for the Scarlet Pimpernel plant which arrived in time for me to wear a buttonhole to go to France.

*Yours
Margaret*
